

PATTERSON WITH THE OPPOSITION

INDEPENDENT MEMBER FOR
MACDONALD CONTRIBUTES TO
DEBATE ON ADDRESS.

The debate on the address in reply to the speech from the throne was concluded yesterday afternoon in the Legislature. Today after the generalities of the two sittings the House will get down to the more serious business of the session. The speaker of yesterday was C. M. O'Brien, the Socialist member for Rocky Mountain, and told, Patterson, the farmer's representative from Macdonald. Mr. O'Brien's speech was largely an attack on the government.

Thursday he would move for a resolution showing that the total area of school lands sold in Alberta up to the 1st of July, 1910.

The average price per acre realized.

3. The amount of revenue received by the province from the school lands sold in each of the years 1905 to 1910 inclusive.

4. The cost of administration in each of the years 1905 to 1910 inclusive.

Mr. O'Brien gave notice that on Thursday he would move a resolution setting out the facts in connection with the case of Fredericks, a Russian, now at Winnipeg, and against whom a warrant of extradition has been granted, and praying the minister of justice not to allow Federal agents to be extradited.

The following public bills were read a first time:

On motion of Hon. Mr. Sifton, an act respecting the raising of trout authorized by the Legislature.

On motion of Hon. Mr. Mitchell, an act respecting truancy and compulsory school attendance; an act to prevent poverty among creditors; an act respecting witnesses and evidence; an act respecting the University of Alberta.

GOOD LAND FOUND AROUND LUSLAND

A Young Town on the Edmonton House and Branch of the C.P.R.—Settlers With Money Rapidly Develop the District.

Bulletin Staff Correspondence.

Lusland, Sask., Nov. 14.—There is good land around Lusland, consequently a good class of settlers have come in and considerable development work has already been done.

This is also a new town on the new line south-west of Macdonald. It does not lay claim to being a railway centre or a divisional point, but prides itself on the farming settlement, its proximity to it and settled chiefly with men with money.

Those homesteaders who have put in their three years and secured their patent are now selling out, but in some cases raising money or a mortgage, so as to further improve their land or to buy more. But the general business of the town is on a cash basis and the farmers are not much in debt.

A Select District.

Four years ago John Stevens and George Bolton drove from Hamilton, which was then the nearest town to where a good class of settlers have come in and settled chiefly with men with money.

Mr. Stevens had previous experience in the Prairies where he was a tenant, in South where he was a tenant of one log house, and lived in the suburbs and Harting's farm for many years. But now he is settled in the country where he has a good as any of those where he has been before.

One reason for his selection of this district in 1906 was on account of the luxuriant growth of green grass, as well as the heavy mat of old grass, which was not disturbed by the wind and with plenty of moisture in the soil. Since then there has been a great deal of moisture for the year 1910 has been somewhat drier all over the country. But even this year the crop is fair.

Carpeting in Demand.

The first of the settlers came from Macdonald on September 1st, 1910, and the first house was built on the site of the present town. The first house was built on the site of the present town. The first house was built on the site of the present town.

The first house was built on the site of the present town. The first house was built on the site of the present town. The first house was built on the site of the present town.

There are also several private wells, also good. The health of the community has been good, and there have been no deaths since the town started.

The citizens of Lusland are looking forward to the near approach of the C.P.R. branch, which is proposed westward from Elgin.

Much Breaking Done.

About 100 men and grading plowing outfits have been at work in the district this year. Lusland district is ideal for the use of these power plows and next year should see a big increase in the amount of land broken.

It has been estimated that approximately only five per cent. of the land was in crop in 1910, and next year should see at least twenty per cent. growing grain.

As all the land is good the town of Lusland has a bright future ahead of it when the entire district raises grain for shipment from here.

Lusland is not marked by a rapid boom, but its good land and rich settlement should ensure a sure and steady development, which in the long run may be just as good for the town.

STILL AS GREAT A MYSTERY

Many Witnesses Called in Montreal Murder Case in Montreal.

Montreal, Nov. 15.—Many witnesses were called before Judge Tracy today at the opening of the preliminary investigation into the charge of murder brought against Perreault, Chervier and Drome, in connection with the death of Cecile Michaud, whose skeleton was found in a vacant lot near Kensington avenue three weeks ago.

No evidence was produced in addition to what has already been given before the coroner. The victim's death is apparently as much a mystery as ever, the defence taking the stand that it may not have been the job of Cecile Michaud at all.

Queen's Separation Question.

Kington, Ont., Nov. 15.—The trustees of Queen's University met Wednesday when the constitutional question of the proposed separation of the Presbyterian Church, which was referred back to the trustee board for further information on the general assembly, will again be dealt with.

It is understood the trustees have changed their attitude and will supply merely further information as to what the changes will involve.

Bank of Montreal's Statement.

Montreal, Nov. 15.—The Bank of Montreal's annual statement was fully up to expectations. The net profits for the year amounted to \$1,797,992, compared with \$1,554,817 a year ago. After paying the usual dividends which called for \$1,440,000, the bank carried forward the sum of \$357,992. Liabilities for 1910 are \$239,922,330; 1909, \$220,747,746. The total assets, 1910, \$239,922,330; 1909, \$220,747,746.

also for their own use. The commissioners will make investigations. The charge made by the assessor of the city for giving information concerning arrears of taxes on property in the city was the subject of much discussion. Ald. Hyndman declared that he was acting in accordance with the provisions of the charter, and that if this fee were not charged he would spend the greater part of his time searching for information to give to real estate agents and others who wanted it in order to arrange a transfer of property and not for the purpose of paying the taxes.

Win Pay Account.
Payment of an account for \$15 for street cars to convey the militia to the scene of the sham fight recently held in the north end of the city was authorized.

The request of a number of residents in Rose Plats for the opening of Donald street between blocks 2 and 7, River lot 4, through Diamond Park, was refused by the council. This street was dedicated to the city many years ago, but was never taken up.

A resident from the district was present and urged the council to grant the request of the petitioners. The considerations which he suggested in its favor were more or less original in character. Among other things he urged that by transferring the baseball ground to the city park the revenue of the street railway would be increased.

Petition for Sidewalk.
The petition for a sidewalk on the east side of Sixth street from Alberta avenue to Westminster street was granted and the work authorized on the same conditions as were attached to the work on the north side of the city.

The sum of \$1,000 was placed at the disposal of the United Alliance on account of the grant to be made for the ensuing year. The aids will be distributed to the various societies in the city.

The council decided to refuse to authorize the change from the original plan of roadway approaches to the city center, as proposed by the railway company.

Proposed Abandonment.
The proposal to abandon certain municipal bylaws at the same time as the railway company was abandoned.

A bylaw was passed fixing the date for the municipal and school board elections for December 12th.

Permit was given to the owners of the First street bridge to cease operation until April 1st next. The request was made on the ground that the proceeds during the winter months were not sufficient to meet the expenses of operation.

The accounts totaling \$106,574.12 was authorized.

The council will meet at five o'clock this afternoon to consider plans and specifications of the east and bridge over the river.

Massive Temple Opened.
Selig, Mass., Nov. 15.—The new massive temple here was formally opened last night.

Divorces in Canada Show Big Increase.
Fortnightly Session of Parliament Will Deal With 27 Applications in Last Ten Years Divorces Have Averaged 10 per Year.

Ottawa, Nov. 15.—The indications are that the private bill legislation of the coming session will be about average. So far there are eighty-two applications for private bills and about the same number as at this time of last session, although the total number of private bills passed last session was one hundred and forty.

The applications include eight for incorporation of railway companies; twenty-nine for amendments to existing laws; ten for incorporation of miscellaneous companies; seven for amendments to existing company charters; one for the extension of letters patent; and twenty-seven applications for divorce. The latter is a record. Last year there were twenty-five applications for divorce, of which twenty were granted.

It is noteworthy that while from 1887 to 1896 there were only one hundred and forty-nine divorces granted, in the last ten years there have been ninety, an average of ten a year, against an average of less than four per year in the period from 1867 to 1886.

To Investigate Irregularities.
Ottawa, Nov. 15.—Hon. J. H. Murphy, of the Bureau of Census, has named a Royal Commissioner to investigate the Chinese immigration irregularities on the Pacific coast and to inquire into the operations of the act governing the sale of opium in the Chinese provinces.

The commissioner will take as a basis of his inquiry the results of the recent departmental inquiry into the Chinese immigration irregularities.

OUR POPULATION ESTIMATED AT EIGHT MILLION.
Washington, Nov. 15.—Contemplating the adoption of some of the government's improved census-taking methods in connection with the next census, the Canadian government has sent to Washington a copy of the "Yearbook of the Census Bureau of Canada," in connection with the director's report on the operations of the census.

The American census bureau, in its report on the operations of the census, states that the population of the United States in 1900 was 76,000,000. This would be an increase of 2,000,000 or about 2.6 per cent. over the figures for 1890.
